#### The Fair.

There are many who appreciate the magnitude of the Tri-State fair. but only a few know that its size is limited by its facilities.

Three months ago practically every available space in the Agricultural building and stock pens was reserved. Becretary Fuller has endeavored to acmmodate the late comers but natrally some of them, for lack of space, had to be denied. The growth of the fair during the

past ten years has been phenomenal. The fair demonstrates to our visitors the wonderful versatility of this sec-

It is customary to say that each year the fair will be bigger and better than ever. The statement is literally true. The fair has grown and expanded as the country has developed and there is no indication that it is not to con-tinue or that the growth will be The fair association, in addition to its

educational advantages offers wide variety of wholesome amusements. It is place that one may go, not only for one day, but several days during the week, and take the whole family and away. every hour of the visit. The fair is beneficial to the city and ommunity to the extent that it is

atronised. It is worthy of support. It is great institution. There is no reason why the Tri-State fair should not rival wonderful fairs in Columbus, Dalles and Oklahoma City. territory should visit the fair. will be a wonderful object lesson. There are a lot of people who need to

learn more about the resources and the possibilities of this territory. The fair will prove to them that they are

The Liquor Question.

A few weeks ago Aaron S. Watkins, Prohibition candidate for president, anunced that he would withdraw from the race and throw his support to the candidate that would go on record as pledging himself to see tha the Vol-

Harding's representative.

There was no occasion for either of he candidates to go on record in this matter any more than there was for

There is no need for apprehension regarding the liquor question. Nearly everybedy is learning to brew a little ething for home consumption, but the sentiment for the return of commercialised liquor business has about

The president of the National Wholeale Liquor Dealers' association chartred as "silly" Gov. Cox's statement that the liquor question is a dead issue. When Gov. Cox was nominated there was a momentary effort to revive the question, but an investination of Gov. Cox's record on law encement in Ohio showed too clearly how little reason there was for encour-

ongress to define the word "intexicating liquors." The people who elect the nators and members of the house have this responsibility. There are not a dosen members in both branches of the congress that could truthfuly be characterised as "wet." In a few years

here will not be any.

The assumption of the Prohibition party that the president will determine the situation, is far-fetched and erroneous. This is a question that the people themselves have settled and until they change their opinion, the counmy will remain legally and constitutionally, even if not actually dry.

"Who will roll for us the stone away?" at the sepulcher. Thomas doubted the Master, Peter denied Him and Judus betrayed, but the women were always

as they went their sorrowful way to the tomb that they might anoint the body of their beloved dead. Their hearts are beavy and they converse strewn path as though in the very presence of the sacred dead, When they leave the city behind them they ask themselves the question, "Who will roll for us the stone away?"

There is no note of doubt or hesianny, no feeling of fear or uncertainty. but the sublime faith which had animated them from the moment they had first met the Master permeated them now. Their perfect faith told them that the stone would be rolled away, but by whom? That was the question.

In Oriental countries women have for countiess ages, and for that matter do still prepare the bodies for interent. It was in obedience to this custom that there came Mary of Magdala and Mary, the mother of James, to temb that marvelous morning. Past villas of their Roman conquerors, the feathery palms and fernalike

pepper trees and into the vale of the tombs. The one thought uppermost in each one's mind, "who will roll for us the stone away?" And lo! when they arrived the tomb was open, the stone rolled away, the body gone and one sat within in shining white garments who told them the glorious news that He was not there, but risen, and showed them the place where they had laid

We wend our way up the hill of Diffi-culty, and at the end the stone will be rolled away, but how few of us have the sublime falth of the two Marys? We know that the stone is there and we worry and fret as to who will roll the stone away for us. We think of it as being too hard, too large, and too heavy for us. We do not keep the faith within us which will enable us to realize that when the time comes the stone will be gone.

All power comes from the God-gift within. How few of us realize this, and even of those who do, how few live up to their knowledge. The ones who have are the exalted few who have worked wonders made miracles and ione what others have declared impossible. Have faith in yourself and the stone will be rolled away, and you will see, instead of rotting flesh, the resurrection of your hopes and the place where all your doubts and fears were

Joseph had faith and he became power in Egypt, inferior alone to the great Pharach; Moses had it and the shepherd boy became greater than a king and a group of jealous tribes a nation; Columbus had it and he gave a new continent to the world: Giotto had it and he rescued art from oblivion; Watts had it and he annihilated space; Shakespeare had it and he created characters that will never die Washington had it and through doubt and despair, through calumny, intrigue, treason, starvation and defeat he piloted a nation through the pangs of parturi-tion and set the standard of the world's

The divine quality that lifts us yond ourselves and enables us to become akin to saints and angels lies right within ourselves. All that we need is a little self-command, a little self-denial, a little self-knowledge, and slowly, step by step, we pass along the road until at last our troubles are We find that the stone is rolled

How many there are who could rise to great heights, who could do such an infinite amount of good for themselves and the entire human race, who could raise the torch of progress higher and cause it to burn with a clearer ray, but who, through indolence, selfishness or indifference, never live up to their capabilities. They never even set out upon the pathway. They will not lift the stone themselves nor give others a chance to remove the obstruction.

These people die before they have lived and not even a bubble remains to show that they once were. They are shadows that come and are gone. Are you a shadow of what you might be and going through life content to remain such, running in your little groove and not caring to look outside your own rut, or are you one of the noble few who are living and doing in contrast to the dreaming and drooping

contrast to the dreaming and drooping pledging himself to see that the Volciage?

Class?

Class?

Class?

Class?

An engineer planned a bridge across a high canyon. "It can't be done." his friends declared. "It must be done." his now reply, but his secretary announced that in the event of Senator Harding made no reply, but his secretary announced that in the event of Senator Harding's election and the repeal of the Volstand act, he "would act in accordance with his best judgment, but would not as president, impose his will on congress cried, and rejected in consideration of this, or any other legislation."

The Prohibition candidate naturally has concluded that there is no assurance in Gov. Cox's silence or in the ambiguous statement made by Senator

Ignorance, and slowly but surely the stone was pushed aside and our own state gave the final blow that pushed it down hill.

What will you be? It is for you to decide. A leader in the vanguard of humanity or one of the trailers behind? A Moses bringing a nation out of bondage, holding communion with God, face shining like the sun, or one of the mob led hither and thither by every passing whim of passion and prejudice, lauding your leader to the skies one moment and ready to stone him the next?

If you are mounting upward, press on. If passing along the highway of life, do not falter. In the fullness of time, when the occasion is ripe, the stone you fear will be rolled away. Have no leader to the school away them to commit themselves to the ob- manity or one of the trailers behind? A

you fear will be rolled away. Have no fears. Help yourself. Make yourself better and you will make the world better, and men will be glad that you bave lived.

Pastor Bellevue Baptist church.

### Boys Go Back To School

BY DR. WM. A. M'KEEVER.

(Prominent Educator and Author of Books on the Training of Boys and Girls.)

he decision. Let us be clear about this matter

Let us be clear about this matter. Two things are likely to cut you to the bone at some future time if you quit school now for mere, wages. First, you will burn with a desire to enter some profession or business, and not have the necessary training, and you you will likely be forced to lapse into a cheap, medicare life.

Secondly, you will see others of your age, who stayed in school, easily passing you in the race, and taking positions of advantage and honor. This will be a bitter dose indeed.

Now, resolve to go back. If the high school, vocation school, business course—part time or full time. There is some kind of school which will fit you and help you to grow into a man of power, influence and the knowledge so necessary for your future happiness and your substantial citizenship.

Skimp, save, deny yourself for the sake of your future education and growth. You can not fall by this course, but you can and will, sometime, probably consider yourself a fall-ure if you drop out of the game now. So pluck up your courage and go on.

#### Fashion's Forecast By Annabel Worthington.

LADY'S SLIP-ON

The dainty model shown in No. 8931 The dainty model shown in No. 5931 may be either gathered or tucked across the front and back at the slightly rounded neck. The latter is simply bound with a bias roll of material giving an effect that is very becoming to the woman with a pretty neck.

The lady's slip-on waist, No. 8931, is cut in sises 36 to 44 inches bust measure. Size 36 requires two and one-eighth yards 36-inch material.

Our fashions and patterns are ful-dished by the leading fashion artists of New York city. Bend orders for patterns to Fashion Department, The News Scimitar, 22 East Eighteenth street, New York city.

### QUESTIONS AND ANSWERS

Q.—If women vote can their votes outnumber those of the men?—W. H. G. A.—It is estimated that the total male vote could be 28,700,000 and the fe-

Q.—I often hear the word "data" pro-nounced as if the first "a" were short, or marked with a breve. Is this cor-rect?—S. W.

A.—We find no authority for this pronounciation. The first "a" in "datum' and "data" is long, marked with a ma

Q.—Is there a process of boring into shade trees and injecting a fluid as a preventive of disease, that is successful?—L. M.

A.—Claim is occasionally made of the efficacy in insect and disease control of substances or compounds inserted into holes bored into trees or placed under the bark. The bureau of entomology says that such treatments are entirely without merit in controlling insects and diseases and are often decidedly injurious to the trees treated.

Q.—What are the commissioned rank

Q.—What are the commissioned rank of officers in the navy.—A. O. N. A.—The highest rank in the navy is that of admiral, then in order of rank are vice-admiral, rear-admiral, captain, commander, lieutenant-commander.

and scalping ten of their captors.

G. C. A.—The salary of the president of the United States is \$75.000 a year. Senators and representatives receive the same salary, \$7,500 per annum.

salary, \$7,500 per annum.

Q.—If a check has been protested for insufficient funds, can it be put through the bank a second time?—H. A. F.

A.—A check that has been protested for insufficient funds can be put through the bank a second time if the protest fees have been paid and the maker of the check has notified the bank to honor it after sufficient funds have been deposited to meet it.

O.—Which carries the greater dis-

Q.—Which carries the greater distance, the tone of the trumpet or that of the slide trombone?—L. J. A.

A.—The United States marine band says that the sound of a trumpet carries farther than that of a trombone.

squirrels in the fields of Montana farmcrs by feeding them wheat poisoned

song, game and insectivorous birds, is
the statement of J. L. De Hart, state
game and fish warden, of thir state.
"The system of killing gophers by
poisoning has killed everything from
horned owis up." De Hart declared.
He cited instances also of horses being
killed and said he has proof of the
poison destroying domestic fowl in
flocks of twenty and twenty-five at one
time.

Girls Like Boys But

THE EVENING
THE GOOD
OLD DATS.
GOSH I'M
LONESOME

WONT YOU HAVE SOME OF THIS DELICIOUS CANDY? MRS SHYDER MADE

ED'S A GOOD GUY

Need Behavior Tips BY MRS. ELIZABETH THOMPSON. Dear Mrs. Thompson-We are two girls 45 years of age and would like to go out with the boys, but we have not been out very much and do not know how to act. We talk loud when

in a crowd, but know this is not the thing to do. Tell us how to behave.

MARGARET AND MYRTLE. You are yet too young to go with boys, but it is time to begin to cultivate the things that make for attraction in everyone. Among other attractions that every woman and girl should have is a pleasant speaking voice, as nothing detracts more than a voice of harshness in a woman. Learn some new fact of general interest every day, so that when you are left alone with a boy you will not be dependent upon giggles and goo-goo eyes to hold him. Become interested in other people and early learn that being a good listener is just about the best asset one can possess.

MARGARET AND MYRTLE.

with the boy looking after his own cap unless he is non compos mentis or armices. Yes.

Dear Mrs. Thompson—I am a girl 15 years of age and am 5 feet 4½ inches should I weigh? Is it improper for two boys and two girls to go 31 miles from home if they know how to behave themselves? Do you really think a girl of 15 is entirely too young to have boy friends?

You should weigh 123 pounds. Not should weigh 123 pounds. Not is just about the best asset one can possess. to behave. Dear Mrs. Thompson—I am a girl 15 years of age and am 5 feet 4½ inchestall and weigh 109½ pounds. What should I weigh? Is it improper for two boys and two girls to go 31 miles from home if they knew how to behave themselves? Do you really think a girl of 15 is entirely toe young to have boy friends? PEG TOP. You should weigh 123 pounds. Not exactly improper, but it would be better to have some grown person along as chaperon. Everyone should strive to have all the friends possible, but a girl of 15 can have boy friends without receiving them as callers, or allowing her mind to be filled with the thoughts of them to the detriment of her duties at school and home. There's a difference.

Dear Mrs. Thompson—I have a very conspicuous mole on my cheek, which is worrying me greatly, and I would like to knew if it can be successfully removed?

This mole can no doubt be removed by what is known as the freezing method. However, it will be better for you to go to a skin specialist for advice as to this operation. If you will send me self-addressed envelope I will gladly refer you to a competent surgeon who will be reasonable in his charges.

charges.

Dear Mrs. Thompson—I live in the country and am planning to go to a skin specialist in your city and have not the slightest idea to whom to go for treatment. Please advise me to whom I should go and whether or not i will have to undress for the examination.

Send self-addressed, stamped envelope and I will be glad to suggest the name of a specialist. You may not have to undress, but be prepared by taking your kimona.

Dear Mrs. Thompson—We are two glirls, 15 and 16 years old, and will finish high school this year. Please tell us where te go te college?

We can not advertise schools, firms or articles for sale in this column, but if you will send me stamped envelope I will be glad to suggest several colleges.

banker of the name former of the have been deposited to meet it.

THANKS

UNCLE WIGGILY AND THE WATER HOUSE.

(Copyright, 1920, by McClure Newspaper Syndicate.)

Sy Howard R. Garis.

"Where are you going, Uncle Wiggily." asked Nurse Jane Fuzzy Wuzzy one morning, as she saw Mr. Longears, the bunny rabbit gentleman, skipping gaily along on his red, white and blue striped rheumatism crutch.

"I'm going to school—to the hollow stump school, where the lady mouse teacher hears the animal children say their lessons," answered Uncle Wiggily. "Why, the idea!" cried Nurse Jane. "You're too old, Wiggy, my dear, to go to school. Though I know you do sometimes help the animal children to tell how many lollypops they have left, if they start with ten and give two loce cream cones to some one. But this is Saturday and there is no school."

"Oh, so it is! I forgot!" cried Uncle Wiggily. "Never mind. I'll walk along, anyhow, and maybe I'll mest some of the animal children, or have an adventure."

So I'varle Wigsily. Wissile. Wissile along. "Nover mind." said Uncle Wiggily. "Never mind. I'll walk along. anyhow, and maybe I'll mest some of the animal children, or have an adventure."

Toodle and Noodle, the nice beaver of the same kind of houses."

Saturday and there is no school."
"Oh, so it is! I forgot!" cried Uncle
Wiggily. "Never mind. I'll walk slong,
anyhow, and maybe I'll meet some of
the animal children, or have an adventure."

Dear Mrs. Thompson—I have a boy friend who has wonderful talent as a comedian. Is there a school where he could develop this talent or could he see the manager of some company about going on the stage? When being introduced to a man is it bad form for a woman of any "I am pleased to meet

the bank rhey were dripping wat, for they had paddled to shore from their water house in the middle of the duck pond ocean.

Toodle and Noodle lived in a water house—that is, it was built in the water. The house was made of sticks, plastered over with mud—that is, the part that stuck up out of the water. And to keep out the weales and other bad animals, the front and back doors of the house were down underneath sould be the water.

To get in their front door Toodle and Noodle had to dive beneath water, as you have to dive your hand under water to pick up the soap if it isn't the floating kind.

"Hello, beaver boysi" cried Uncle Wigglly in his jolly voice. "Glad to see you!" said Toodle, as he gave himself a shake. Noodle shock himself, too, as your dog does after he's been swimming in the water to get the stick you threw in. Toodle and Noodle wanted to shake some water off their fur and off their flat tails, which thay used as paddles to swim to shore.

"Oh, loncle Wigglly in they cried. "The Skuddlemagoon is chasing us! He yours! Oh, Uncle Wigglly when the can't be pear to be wet!" water house in the middle of?"

"Here, friends! Get on some of these pieces of bark. They are large enough for boats. Get on and well push you to dur water house in the middle of the other than the water to get the stick you threw in. Toodle and Noodle wanted to shake some water off their fur and off their flat tails, which thay used as paddles to swim to shore.

"Oh, loncle wigglly were and to be well water, as you have to dive your said the bunny and pushed them out from the water house in the middle of the out." The part of the said to shake some water off their fur and so the water house in the middle of the some voices, and there stood. Kittle Kat, "It makes our fur all scraggly like."

"We're sorry," spoke Toodle. "But we'll shake ourselves farther off," said Noodle, "and then we won't is platter you."

"Is solden and Uncle Wigglly were having the beaver boys you have to dive your hand under the bad to the beaver house in the

anyhow, and maybe I'll meet some of the animal children, or have an adventure."

So Uncle Wiggily walked along, twinkling his pink nose, so he wouldn't be lonesome, until, al of a sudden, near the duck pond ocean a voice called to him:

"Hi, Uncle Wiggily!"

With that Toodle and Noodle Flat Tail, the beaver boys, climbed out on the bank. They were dripping wet, for they had paddled to shore from their water house in the middle of the duck pond ocean.

Noodle lived in a water

"We can't all live in the same kind of houses."

Toodle and Noodle, the nice beaver boys, wet their tails in the water, and sprinkled some drops on a muddy, clay hill on shore. The water made the clay slippery, and the beaver boys had fun sliding down hill. They didn't have to wait for snow and ice to have fun coassing. Uncle Wiggily had a slide, to, for he didn't mind getting his fur wet.

All of a sudden, when Toodle and Noodle and Uncle Wiggily were having lots of fun on the mud side, kittle and Tabby came running back.
